

dga references :

- ① Luchezar Avramov "Infinite Free Resolutions"
(you can jump around & read sections out of order)
[big monograph] [lectures from workshop in Barcelona in 1996]
- ② Srikanth Iyengar "André-Quillen homology"
[but uses simplicial resns — so works in any characteristic!]
- ③ L. Avramov & S. Halperin "Through the looking glass"
Springer LNM (Lecture Notes in Math) #1183
